## Next Meeting August 6, 7:00 PM at the Flying Field

### Minutes from the July meeting.

1. There were 15 members in attendance.
2. Marty gave the treasures report. The treasury survived the Fathers Day rain out with a reasonable profit mostly due to the raffle.
3. Grasshopper update. The mower is in good shape and the rebuilt engine is doing well. I have received enough donations to cover the cost. Thanks to all that donated.
4. At the time of the meeting the field was still under water. Tom has marked off the parking lot and we should not drive in it until the ground dries and firms up.
5. We will need lots of help for the IMAC contest. Toby covered what he will need as far as help. We will have a signup sheet at the next meeting and hope we can fill all of the time slots. We will need cooks to do a dogs and burgers lunch both days and there will be a steak dinner Saturday night. Toby is providing the steak and we will need to provide sides. Help will be needed for running score cards from the judges to the person running the scoring computer. We need help to enter scores in the scoring computer. Toby has the judging covered. Toby asked if someone could help him layout the graphics for the awards he is providing. Since Tom was on vacation we volunteered him (Tom please give Toby a call when you can).
6. The IMAC flying will start at 9:00 both days and should finish around 5:00 Saturday and 2:00 Sunday (plus or minus the weather). We should be at the field early to help with parking.

Dues may be sent to Marty Widowski at  
7212 Center Rd. Wilmington, Ohio 45177  
or Don Crim at  
206 S Clarksville Rd, Clarksville OH 45113  
Dues are \$85 for all members

7. Any member wishing to receive the news letter by e-mail please send me an e-mail at [don.crim@gmail.com](mailto:don.crim@gmail.com).  
Marty and Tom have put a link to the news letter on the web site. If you are getting a mail copy and are happy reading it on the web page let me know and we can save another stamp.
8. We need to thank all the folks who worked so hard to organize the Fathers Day Fly In, especially the Lady's. For those that did not make it out we sat and watched it rain until the water rose to about 3 inches in the shelter and decided to give up about 12:30. The next challenge was getting everyone out of the parking lot. Tom has rolled the ruts several times but we will need additional work to get back to normal.
