7. The old forum is back. Tom said we will keep both for now.
8. The Fathers Day Fly-in is Saturday June 16. That is this coming weekend and **we need all the help we can get**. We will set up Friday starting at 10:00. We need to set up the fence, the shelters and do any mowing that is needed. We will also organize the food and make a run to the store. We will need coolers and ice Saturday morning. The club voted to not have the steak dinner.
9. Reminder: we need to call the Wilmington tower before flying. Instructions are posted at the field.
10. Tom stated that he has a new wind sock and will install it Friday.
11. At the request of our Safety Officer (Toby) we now have 3 anchor points for tying down planes for starting. The anchors are flush to the ground so we can mow over them. There are 3 straps in the shed for hooking to the anchors and your planes.
12. Toby discussed his work in trying to get donations for the IMAC contest. He said that the vendors are not responding to his requests.
13. Last week I found the power to the outlets on the fence not working. We found that the ground fault outlet on the wall behind the air compressor had tripped. After a reset all was good. I did not know we had that ground fault outlet in line with the fence outlets.

Please come out to the Fathers Day fly-in and help, We need all members to help if they can.

Next Meeting is July 5 , At the Field 7:00 PM.
